

IN THE RACE FOR THE CURE,
A & C CATALYSTS LEADS THE WAY!

A &C Catalysts is a leading manufacturer and supplier of epoxy resins and curing agents to the electronic, automotive and aerospace industries. Our products are distinctive for their exceptional flexibility, toughness and long storage life. For superior adhesion, long pot life, greater reactivity at lower temperatures, and easy dispersion, look no further than A&C Catalysts' toughened epoxies, latent curing agents and accelerators. Our catalogue of products is the most diverse and complete in the industry. Not only do we represent **Ajinomoto-Fine-Techno**, manufacturer of **Ajicure**® Latent Curing Agents for Epoxies as well as other specialty curatives, our own cutting edge proprietary formulas enhance our ability to meet your specific needs.

A&C Catalysts has the cure!
